

EP7000-EP10000 Series

Electric Pneumatic Tire Lift Trucks

Capacity And Voltage:

- 7,000-10,000 lb
- 80 Volt

Industry Applications:

- Manufacturing
- Wholesale Trade – Durable
- Warehousing and Storage

Key Features:

Advanced Ergonomics

- Fully AC design offers outstanding performance and extended battery life
- Standard fingertip controls offer precise load handling; a travel directional switch and horn are conveniently integrated into the fingertip module.
- Easy-to-read, steer-column mounted display panel includes vital information for the operator, including a steer direction indicator, maintenance reminders and selectable performance modes.
- The floating cab rests on cushioning bushings, working with the full suspension seat to absorb floor shocks and overall vibrations, providing a more comfortable ride for operators.
- Secure entry and exit with open step and anti-slip plate and elongated grab bar

Powerful Technology

- Alternating Current (AC) truck design improves efficiency, while the regenerative braking system offers optimal energy recovery.
- The AC electric motors are protected to IP54, protecting them against dust, water and chemicals.
- Extremely quiet motors provide precise performance at all power levels.
- Narrow mast channels, a very low-profile cowl and open overhead guards help improve operator visibility of the load and the surroundings at all times.
- Maintenance becomes effortless with extended service intervals, display-based indicators and reminders and easy access to service components.
- Multiple wet disc brake system for improved ramp performance and extended service life

Option Packages:

- Hydraulic system options
- Integral side shifter
- Non-marking tires
- Cold store modification
- Operator cab
- Light packages

Customer Service:

- 2 year/unlimited hours comprehensive coverage
- 3 year/6,000 hours powertrain warranty
